THE LEADER IN STRATEGIC SECURITY

ABOUT US

Founded in 2013, Strategic Security is a company specialized in the installation and maintenance of affordable, high-end security surveillance and biometric solutions. At Strategic Security we continuously evaluate our product lines to best provide our clients, based on functionality, quality, and price.

Our customer base is broad; ranging from numerous sectors such as residential villas and buildings to small businesses and large corporates.

We at Strategic Security are extremely proud of our superior ability to successfully undertake the most complex, multi-dimensional security challenges that our clients face, fast becoming a valued organization within the security industry.

VISION

To become a regional leader in the security services industry.

MISSION

Expertise: Delivering the right solution, tailored to our customers.

Professional: We strive to employ the right personnel, equipment and technologies in serving our customers.

Quick Response: To both, employees and customers issues, needs and development.

Developing Human Capital: Training and developing our staff to best service our clients.

WHAT WE DO

At Strategic Security we offer all our clients; specialized professional security services in all areas, protecting a broad range of businesses, organizations and private properties. By using the latest programs and technologies, we always want to make our customers feel safe and secured wherever they are.
